NOW ACCEPTING APPLICATIONS · FOUNDING COHORT

Platform launches *June 2026.*

01 JUN 2026

Apply today to reserve one of 20 founding-cohort seats. Applications reviewed weekly. Accepted founders onboard on or before launch day — ready to draft their first proposal on day one.

AI + EXPERT • FROM APPLICATION TO SUBMISSION

A proposal engine, *not* a proposal gamble.

RFP Pipeline pairs isolated, company-specific AI with 25 years of hands-on federal R&D expertise — so small businesses can pursue SBIR, STTR, BAA, and OTA funding without burning a month of payroll on every submission.

4+	72*h*	20	25+
FEDERAL SOURCES INGESTED	EXPERT-REVIEW SLA	FOUNDING COHORT CAP	YEARS OF FED R&D EXPERTISE

Six stages from curious *applicant* to compliant proposal *submission*.

VALUE FROM DAY ONE - NOT SIX MONTHS FROM NOW

01 — Apply

Short *application.*

Company info, SAM.gov status, prior awards, tech summary. Filters tire-kickers. Nothing paid yet.

02 — Accepted

Expert reviews *every* one.

Personal review within 72 hours. Brief onboarding call. If you're a fit for the cohort, you get an invite link.

03 — Onboard

Your *library* goes live.

Upload capability statement, past performance, key personnel. Activate subscription. Your AI agents provisioned.

04 — Spotlight

Daily *curated* pipeline.

SAM.gov, SBIR.gov, Grants.gov, and agency portals ingested every day. Expert-curated matches ranked to your technology innovation areas.

05 — Purchase Portal

Pay per *build.*

Purchase individual Proposal Portal when you find a fit. Expert builds the compliance matrix in 72 hours. AI drafts against your library. Your team revises.

06 — Submit & Learn

The system gets *smarter.*

Every submission, every verified value, every debrief feeds future cycles. The AI gets more accurate — and intelligent — enabling proposal development at scale.

HOW WE CHARGE

One subscription. Per-proposal *portals.*

Priced and built specifically for small businesses, not enterprise. Low cost subscription provides find and remind capabilities. Per proposal pricing ensures you only pay for builds you choose. Experts curate, AI drafts, your team collaborates, and you control it all from your portal.

REQUIRED • MONTHLY

Spotlight *Subscription.*

$299 /mo

THE FOUNDATION OF EVERYTHING

Daily ingestion. AI-powered ranking against your profile. Expert-curated compliance matrix for every ingested opportunity. Deadline alerts. 15 min of Ask-the-Expert each month (rolls over).

REQUIRED TO PURCHASE ANY PORTAL

PER-PROPOSAL

Phase I — *Like Effort.*

$999

PER PROPOSAL

SBIR/STTR Phase I, smaller BAA topics, OTA/CSO short-form. 72-hour curation by Expert. Stage-gated workspace. Custom AI drafting your tech volume, cost volume, abstract.

*REQUIRES SPOTLIGHT SUBSCRIPTION

PER-PROPOSAL

Phase II — *Like Effort.*

$1,999

PER PROPOSAL

SBIR/STTR Phase II, larger BAA, OTA prototypes, complex NOFOs. 20–50+ page tech volumes. Commercialization plans and other supporting documents required typically.

*REQUIRES SPOTLIGHT SUBSCRIPTION

Trust, *engineered* into every stage.

Federal R&D buyers care about data security, provenance, and compliance. We built for that audience from day one.

CUSTOMER ISOLATION

Row-Level Security, tenant-scoped.

Unique storage prefix per account. Your AI only sees your data. Enforced at the database layer, not policy.

PROPOSAL ISOLATION

Sandboxed per portal.

Each proposal portal is isolated and access control is established by your administrator, not ours.

COLLABORATOR CONTROLS

Section-level, role-level, easily-revocable.

Invite subcontractors and SMEs to specific sections of specific phases. Revoke instantly.

NO MODEL TRAINING

Your IP is yours.

Built on Anthropic's Claude API with strict no-training terms. We never train on your data. Never.

The *expert* gate.

The AI drafts. The Expert verifies. Your Team collaborates and reviews. Available Expert review.

ERIC WAGNER — FOUNDER & ARCHITECT

25 years of federal R&D funding.

The Expert personally reviews every application, curates every solicitation released into your Spotlight, and is available for pre-submission review. As the service scales, additional experts will join the roster — you will always know which expert reviewed your pipeline.

- 72-hour application & curation SLA
- 15 min of strategy calls per month
- Agency-specific: DoD, NSF, DOE, DARPA, DOT
- Additional time on demand — $500/hr

> *"Free trials attract tire-kickers who waste expert time that serious applicants need. The application itself is the qualifier."*
>
> — WHY NO FREE TRIAL

APPLICATIONS OPEN · LAUNCH 01 JUN 2026

Apply today. Draft your *first* proposal on launch day.
