

CALCITE MATERIALS · KEY PERSONNEL

Rafael Duarte, Founder and Principal Investigator

Cement and concrete chemistry. PhD in Materials Science from Michigan. Nine years in industrial cement research, including supplementary cementitious material qualification for a major ready-mix producer.

Helen Vasquez, Process Engineering Lead

Scale-up and reactor design. Designed and commissioned the two-tonne-per-day pilot line. Previously in continuous process design for specialty chemicals.

Samuel Bright, Quality and Standards

ASTM and AASHTO qualification pathways. Twenty years in construction materials testing and certification.
