YEARS FED R&D

100%

HUMAN-GATED AI

Billions a year in non-dilutive funding — kept off most companies’ radar

There are billions each year in non-dilutive federal R&D funding — grant-like money you keep your equity and IP on. Most qualifying small businesses never apply, because the process is opaque, deadline-driven, and expensive to chase. RFP Pipeline makes it accessible.

The status quo	What it costs you	RFP Pipeline
Opportunity monitoring	~\$5,000 / month for a feed you still triage	Included
Proposal consultant	Commonly ~10% of the award as a success fee	Flat fee, no success fee
Your team’s time	A month of payroll per submission, from scratch	Draft from your library

The math. Replaces a \$5,000/mo monitoring service and a 10%-of-award consultant — for **\$499/mo and a flat per-proposal fee.** No success fee, ever. Every cycle makes the next cheaper, faster, and more accurate.

What you get — the platform at a glance

CAPABILITIES

 Discovery & ranked pipeline Daily ingestion across SAM.gov, SBIR.gov, Grants.gov & agency portals, ranked to your tech areas.	 Scoring buckets Rank the whole pipeline by your own keywords, agencies, program types & NAICS — transparent, per-factor.
 Expert curation (72h SLA) A real expert provisions your compliance matrix, volumes & section molds from the solicitation.	 Isolated, company-specific AI Walled to your company. No model training on your data. Injection-fenced.
 Reusable content library Upload → atomize → reuse. Copied forward into every proposal; retiring an item breaks nothing.	 Workspace & compliance matrix Stage-gated build, per-section accept-and-lock, live requirement coverage & page-fill gauges.
 Proposal Studio (AI workforce) Draft → Refine → Compliance, gated — you approve at each step, or run all three automatically.	 AI review & compliance check Color-team recommendations per section + pass/fail/partial requirement scoring.
 Submission-ready exports Word, PDF, Excel (live formulas) & per-volume ZIP + a packaging-completeness review.	 Outcome → contract A win starts your contract + kickoff; every result sharpens your library for the next bid.

- Multi-tenant isolation
- No model training on your data
- Full audit trail
- AI advisory & human-gated
- Injection-fenced
- Governed AI — budget/rate caps

Simple, flat pricing — no success fee, ever

REQUIRED · MONTHLY

Spotlight Subscription

\$499/mo

Daily ingestion, AI ranking, expert-curated compliance matrix, deadline alerts, 15 min Ask-the-Expert/mo. Required to buy any portal · 3-min min.

PER-PROPOSAL

Phase I — Like Effort

\$1,999_{ea}

SBIR/STTR Phase I, smaller BAA, OTA/CSO short-form. 72-hour expert curation, stage-gated workspace, custom AI drafting.

PER-PROPOSAL

Phase II — Like Effort

\$4,999_{ea}

SBIR/STTR Phase II, larger BAA, OTA prototypes, complex NOFOs. 20–50+ pp volumes. \$3,999 with a linked Phase I.
