

Key Personnel

Dr. Mara Ellison — Principal Investigator

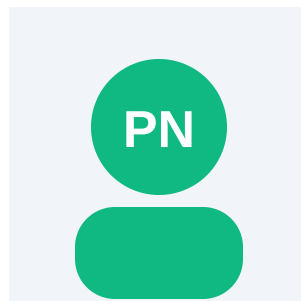

Dr. Ellison holds a Ph.D. in Electrical Engineering and has 12 years of experience in low-power machine learning for sensing. She led the quantization research that underpins Aerivio's core IP and will devote **0.30 FTE** to this effort as Principal Investigator.

Tomas Reyes — Senior Systems Engineer

Mr. Reyes brings 9 years of embedded real-time systems experience, including two fielded maritime autonomy stacks. He owns the edge-port and latency-benchmark tasks and the deterministic scheduler design.

Priya Nandakumar — ML Engineer

Ms. Nandakumar specializes in model compression and data augmentation. She will lead corpus curation and quantization-aware training, and maintain the data card and evaluation protocol.
